STXC and ENDURO

?

STXC: Similar to last year's popular course. A fast single track descent dumps riders onto some double track that is good for passing. A quick swooping uphill brings them right back to the start. Distance is slightly under a mile.

Enduro: A new event this year. Following some of the same trails found in the OverMountain enduro race. The race will consist of 3 stages, best overall time wins. Perfect for all levels of ability, one stage may have a slight climbing challenge to keep rowdy xc racers interested.

SUNDAY, October 9th

XC and DH

XC: The classic XC course. Lap starts off with single-track that brings riders out to a fire road section followed by a section of technical downhill single-track. This leads into a fast and fun downhill section with rollers, berms, and bridges, which brings riders back through the Highland Mountain base area to the start/finish line. Approximately 3.5 Mile Lap

DH: Classic New England downhill course with many rocks and roots; same course that the ECCC has raced on for many years. Starts on the top of Hellion then cuts in and out of Maiden Voyage before finishing on the bottom of Hemlock.

*** Riders will report back to the start immediately after their first run to do a second run if they choose. Only one run is necessary to score, however each rider may start and finish the course twice. The fastest time will count.*
