Course Descriptions

XC: A new course layout this year with long singletrack sections, multiple climbs, and exciting technical sections will challenge riders on the ~3 mile course. The course includes trails in the Goose Hill Area and are near the Dual Slalom course.

STXC: A 0.6 mile loop near the Lincoln Peak base area, consisting of some old school Vermont singletrack with a double track section at the beginning of each lap for passing.

DS: This classic slalom course used in previous UVM races is always a rider and fan favorite. Following a gate start, racers to go head-to-head into a drop-in followed by a step-up jump. Next is a series of berms interspersed with jumps and rollers. Riders need not gap any feature to complete a run.

DH: This downhill track is the lower portion of the Eastern States Cup racetrack, which has some true northeast character. It is very steep with lots of rocks and roots. Expect times of about 2 to 3 minutes for top riders.
